Cancellation and refund policy: A full refund of the seminar registration fee may be obtained, provided LA AFAA receives **written** notification at least 7 days prior to the start of the seminar. All other cancellations will be subject to a minimum \$25 to \$100 cancellation fee. "No-shows" are ineligible for refunds. Special circumstances will be handled on a case by case basis. **Member pricing valid for NAFED and LA-AFAA Members**. LA-AFAA seminars are subject to cancellation when pre-registration falls below the minimum number of 20 attendees. LA-AFAA cannot be responsible for losses resulting from cancellation of any seminar.

Attendees are responsible for their own lodging, transportation, and required NFPA standards. A listing of Hotels in near proximity to the Louisiana State Fire Marshal Office is attached for your convenience. **Special seminar room rates have not been negotiated.**

The Louisiana AFAA is also sponsoring the AFAA Test and Inspection Seminar on March 25, 2010. Visit the National AFAA webpage for more information.

NAFED Training Seminars in Louisiana March 23-24, 2010 Baton Rouge, Louisiana

Complete the Louisiana Initial Licensing Requirements and/or earn 6 Louisiana Contact Hours per seminar and/or 8 Education credit for ICC & NAFED

To Louisiana area Fire equipment service companies:

The National Association of Fire Equipment Distributors (NAFED) will be conducting training on Pre-Engineered Systems, and Engineered Systems at the Office of State Fire Marshal. These classes have been approved by the Louisiana State Fire Marshal for initial licensing and continuing education credit. (Please note that your company must also have an employee with NICET level III certification in Special Hazards before the State Fire Marshal will issue an engineered systems license to the company.) However, this engineered systems training could apply to continuing education credit for any type license. You should attend this training if you would like to learn more about engineered systems.

For Louisiana based companies, the cost of the classes is reimbursable through the Louisiana Department of Labor's Small Business Training. To apply for the reimbursement, you must complete your application thirty (30) days in advance of the training and the employees must have had unemployment taxes withheld from their earnings. This reimbursement also applies to the cost of standards and reference materials purchased as part of the registration fee. To learn more about how you can receive this reimbursement, go to www.laworks.net, then click on On-Line services and scroll down to Small Business Training. If you need assistance, please call Jennifer Johnson at the Louisiana Department of Labor. Her telephone number is (225) 925-4446.

NOTE: Attendance at these seminars does not grant NAFED or International Code Council (ICC) certification. If an individual wishes to achieve ICC/NAFED certification, they must register for and successfully complete the appropriate certification exams. Under current Louisiana regulations ICC/NAFED certification is not a requirement to obtain a license in Louisiana for pre-engineered, or engineered extinguishing system technicians.

NAFED's training seminars provide six Louisiana contact hours of education credits per each full day course and eight education credits for ICC and NAFED certification. These seminars are great as general technician training seminars and provide credits that may be used for certification or license renewal purposes. These seminars consist of a review of the applicable standards and an examination at the end of the seminar. Approximately two weeks after the seminars, attendees will receive written notification if they passed or failed the examination.

At the training seminars, we will:

- Review the structure of the various applicable NFPA standards
- Practice how to find information in the standard
- Conduct a review of the appropriate standards
- Complete the appropriate examination.

Registration Information

Enclosed is the registration form for Pre-Engineered Fire Extinguishing System Technician Training Seminar, and Engineered Suppression Systems Seminar. Please return your completed registration to the Louisiana AFAA, 7575 Jefferson Hwy, #16, Baton Rouge, LA 70806.

Required Materials

All of the training seminars are based upon the National Fire Protection Association's Standards that are applicable to each discipline. If you or your employees qualify for the Louisiana Department of Labor's Small Business Training reimbursement, the cost of the standards would also qualify for this reimbursement. **Please note that the standards will not be available at the seminar and since the seminar examination is an open book examination, it is imperative that each attendee bring a hard paper copy of the applicable NFPA standards.**

Pre-Engineered Fire Extinguishing Systems Training Seminar

This seminar concerns both pre-engineered kitchen fire extinguishing systems and pre-engineered industrial fire extinguishing systems. *Therefore, the following NFPA standards are required: 2002 Edition of NFPA 17A, Standard for Wet Chemical Extinguishing Systems; 2008 Edition of NFPA 96, Standard for Ventilation and Fire Protection of Commercial Cooking Operations; and 2002 Edition of NFPA 17, Standard for Dry Chemical Extinguishing Systems.*

Engineered Fire Suppression Systems Seminar

This seminar covers various special hazard engineered suppression systems. *The NFPA standards that are used for this seminar include: 2005 Edition of NFPA 11, Standard for Low-, Medium-, and High-, Expansion Foam; 2005 Edition of NFPA 12, Standard for Carbon Dioxide Fire Extinguishing Systems; 2004 Edition of NFPA 12A, Standard for Halon 1301 Fire Extinguishing Systems; 2002 Edition of NFPA 17, Standard for Dry Chemical Extinguishing Systems; 2006 Edition of NFPA 750, Standard on Water Mist Fire Protection Systems; and 2004 Edition of NFPA 2001, Standard for Clean Agent Fire Extinguishing Systems.*

The above referenced NFPA standards can be ordered online through the AFAA website at www.afa.org.

It is recommended that attendees for this seminar also bring a calculator for use during the seminar and examination.

Register now to ensure a place at these seminars and to meet the pre-registration date required for reimbursement through the Louisiana Department of Labor's Small Business Training.

The Louisiana AFAA is also sponsoring the AFAA Test and Inspection Seminar on March 25, 2010. Visit the National AFAA webpage for more information.

Laptop computers and other electronic devices (except calculators) will not be allowed in the Exam Room. To receive maximum benefit from the seminar, the attendees should review the standards prior to the seminar and have a basic understanding of the contents.
